

# Playing Music with no Music

1. Play a "C" chord (left hand)
2. First note of song (R.H.) will be  
G E or C (in that order)
3. When you find the first note pick out  
the melody line
4. When the "C" chord sounds crummy  
change it to "F" or "G"

Chord progression choices

C-G-C    C-F-C    C-F-G-C

If your ear is not working, use logic!  
When the chord sounds crummy, look at  
the melody note and find the chord that  
has that note in it!

C - C E G

F - F A C

G - G B D
